

Title of invention: SJB pocket
Name of inventor: Stuart James Bartle

CLAIMS

What I claim is:

1. A hidden pocket structure sewn behind zipper/button fly (Button's used to open and close front opening of pants) pants/shorts/underwear(briefs). This invention is use to conceal items such as a wallet, keys etc.

The SJB pocket used in pants front zipper has snaps on top back corners of pocket to hold pocket taut when in use.

The SJB pocket used in front of underwear(briefs) is sewn behind the button fly opening all around edges and has no snaps.

2. A back pocket of pants three times longer then standard back pants pocket.
